# Origins

Whiteriver Group is an Irish business that first started distributing flooring in 1997 and have since grown to become the market leaders in laminate and engineered flooring in Ireland. The name of the company was inspired by the White River which runs through Dunleer, Co. Louth.

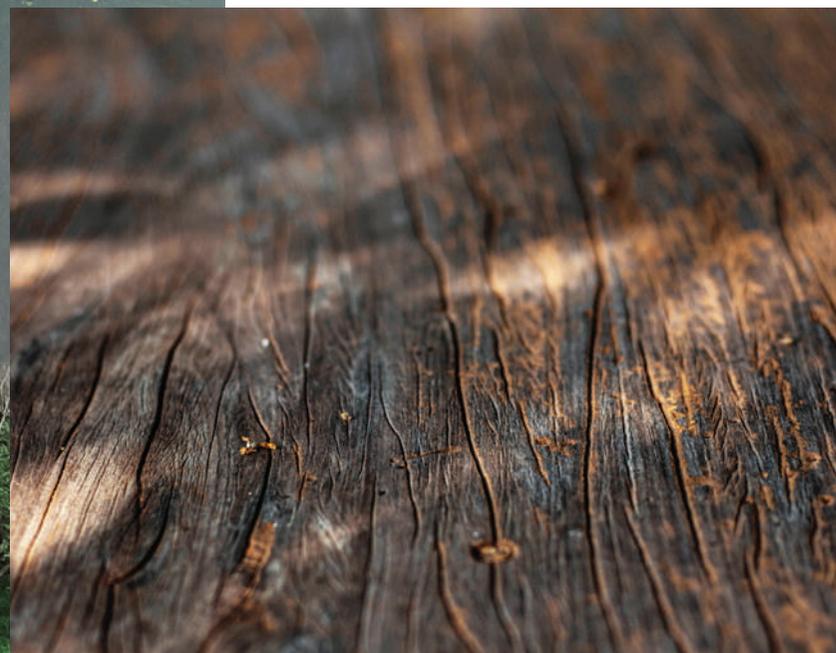

Over the years our company has also broadened its product range to include internal doors, mouldings and composite decking. The company was started by Brian Wogan and is now lead by his sons Iain and Bernard Wogan.

Our aim is to provide our partners with top quality value for money products, technical/marketing support, and world class service.

8mm Herringbone - Metz Oak

# LAMINATE FLOORING

GOOD FOR YOUR HEALTH & THE ENVIRONMENT

Laminate consists to about 90 per cent of wood, a natural material. That's why it has such an eco-friendly profile and delivers both health and environmental benefits. The décor side is mostly made of high-quality paper impregnated with melamine resin. Laminate flooring thus predominantly comprises wood, a renewable raw material.

[www.wrg.ie](http://www.wrg.ie)

# Product quality & Environment

In today's fast moving environment consumer's tastes and trends are constantly changing and here at Whiteriver we endeavour to keep our ranges in tune with demand. We are also fully committed to following all Government and EU policy on the handling and sourcing of timber products. In Europe through the EU timber regulations, we have very strong legislation that puts in place detailed check lists and audits that ensure all timber products supplied come from sustainable sources. Our product ranges are primarily based on wood species that have proven sustainable reserves which ensures you can have peace of mind when selecting one of our products.

Our company has both FSC® and PEFC Chain of Custody certification. The Forest Stewardship Council® (FSC®) aims to promote environmentally appropriate, socially beneficial and environmentally viable management of the world's forests. Read more about FSC® – [www.fsc.org](http://www.fsc.org). The Programme for the Endorsement of Forest Certification (PEFC) is an international non-profit, non-governmental organisation dedicated to promoting Sustainable Forest Management (SFM) through independent third-party certification. Read more about PEFC – [www.pefc.org](http://www.pefc.org).

# Ecological

Renewable  
resources

Plastic-Free  
up to 90% wood

Long  
Service Life

Completely  
Recyclable

How healthily we live today and what kind of planet we want to leave to the generations that come after us – that depends entirely on us. Added together, every little step of the way can become a real leap forward. And that means for everybody. Sustainably produced, environmentally healthy flooring from Whiteriver are just such a step. Because we set the bar when it comes to living together in a way that is climate-friendly and protects resources.

All of our laminate products are either PEFC or FSC certified by the manufacturer.

### Greenguard

Product certified for low chemical emissions. Laminate Flooring that's safer for your home and better for the planet

### Blue Angel Certified

All our laminate floors in this brochure are Blue Angel certified for low emissions, sustainability & environment.

### Floor Score

FloorScore® is the most recognized indoor air quality (IAQ) certification standard for hard surface flooring materials, adhesives, and underlayments. Developed by SCS with the Resilien

# Panel construction

The panels for our laminate flooring are made up of at least four sturdy layers. These guarantee the durability and excellent quality of Whiteriver. This is how we create long-lasting floors for all requirements.

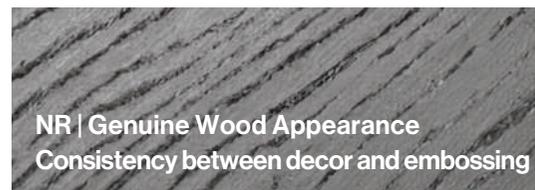

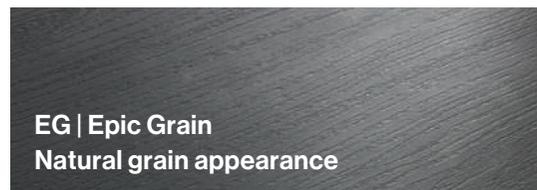

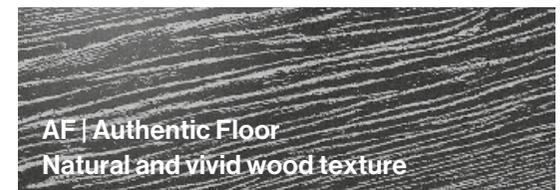

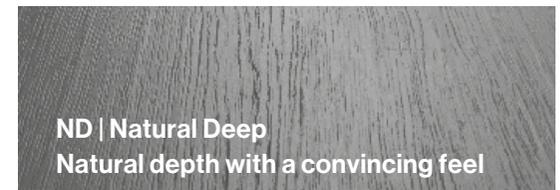

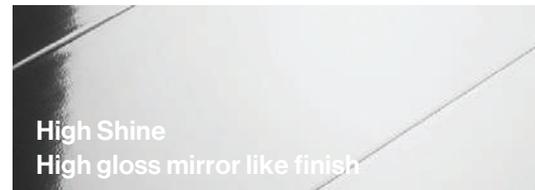

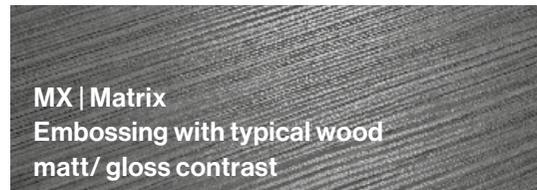

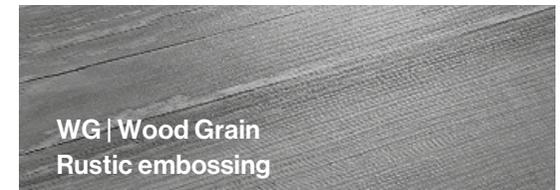

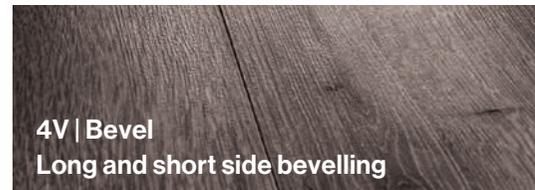

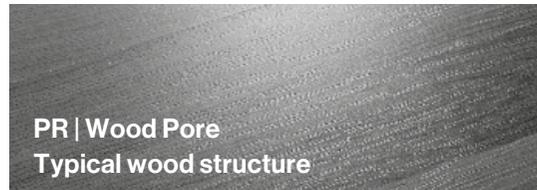

- A** The upper surface of the flooring features a particularly wear-resistant overlay protection film.

---
- B** The overlay protection film is pressed together with the individual, hardened decorative film to form a hard-wearing surface.

---
- C** The base layer is a wood fibreboard.

---
- D** On the underside of the base board, a moisture-resistant stabilisation film ensures the structural stability of the laminate flooring.

# 10MM MAMMUT PLUS LONG PLANK 4V

The best and more. This is the promise of the new decors of the MAMMUT PLUS collection from Kronotex. While exhibiting the same technical mastery as all MAMMUT flooring, this offers you even more authenticity, an even larger choice of styles and even greater perfection. Apart from its incredible robustness and versatility, MAMMUT PLUS also raises the bar in other ways. Its extra-wide panels complement the existing extra-long and extra sturdy versions of the MAMMUT family. The decors seduce you with their elegantly authentic natural wood look, which cannot help but add posh country style comfort to your home.

- THICKNESS:** 10 mm
- BOARD SIZE:** 1845 X 244 X 10 mm
- BOX QUANTITY:** 4 Panels / 1.80 m<sup>2</sup>
- WARRANTY:** 30 Year Residential

# 10MM MAMMUT PLUS LONG PLANK

Your Home. It's what we're all about! We want to be part of the rooms where you feel most comfortable and at home; the rooms that give you energy, security and strength. Our designs are setting new trends, and our wooden flooring technologies set the standards in terms of quality and sustainability.

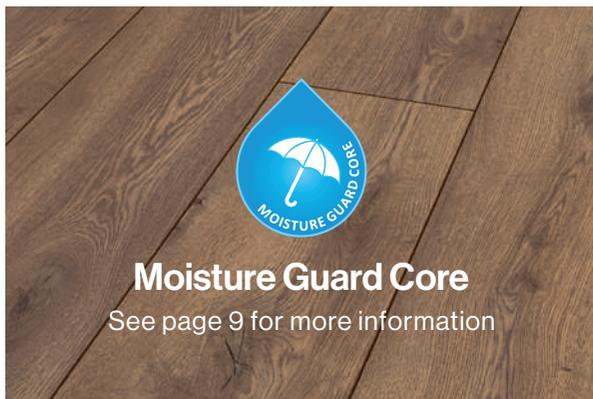

10mm Mammut Plus 4V Long Plank / Macro Oak Beige 4V

## *Supersize your room*

If you are looking for a floor to make your rooms appear larger, then look no further. Classic aesthetics and functionality are successfully combined to create the Mammut range. Anyone who appreciates the unmistakable, natural looking appearance of oak long planks and at the same time wants durability will find Mammut meets both requirements.

Our new Mammut range have been optimised with Moisture Guard Code technology to reduce swelling

MAMMUT PLUS

10mm Mammut Plus 4V Long Plank / Mountain Oak Brown

# MAMMUT PLUS A LOVE OF DETAIL

With its particularly wide panels, MAMMUT PLUS makes for an extremely elegant atmosphere. And so this floor is particularly suitable for larger rooms, effectively underlining their spacious architecture.

**10MM MAMMUT PLUS 4V LONG PLANK**  
is the right choice for anybody who sets the highest  
standards for the ambience of their surroundings.

# 12MM MAMMUT LONG PLANK 4V

Perfection comes in many guises and none more so than in our 12mm Mammut Long Plank from Kronotex. It combines the best features of ROBUSTO, DYNAMIC and EXQUISIT ranges. Whether used universally, for extremely heavy loads or to create a sophisticated and natural look, MAMMUT is a floor which can meet all requirements. The panels are extra hard, extra long and, what's more, extra practical. An outstanding feature of the patterns and hues is their country cottage character and the fascinating, authentic natural wood look.

## 12MM ROOMS AQUA 4V

Don't be scared of water thanks to the Aqua Pearl system

Our Penthouse collection is recommended for floor-resistant luxury at home, as well as for commercial use. With a thickness of 12 mm, the collection offer pleasant sound insulation and a high level of installation comfort.

We all know what it's like: you pop outside for a few minutes, and, as the weather's so nice, you don't bother closing the windows. And then the heavens open. A brief downpour doesn't just leave your clothes sodden – it leaves your floor at home drenched, too, if you've left the windows open.

ROOMS floors are the solution for all situations. Their Aqua Pearl system protects floors against water and all kinds of liquids; they resist spills for up to 24 hours. Our time at home can be incredibly hectic, so you need to give it your all. And if you don't deal with an accident immediately, there's no need to worry: your floor's got your back.

# CLASSIC TOUCH

# Natural wood feeling

## Laminate flooring with a natural surface

Looking for laminate flooring that replicates the feel of real wood? Look no further than Whiteriver's Natural Touch category. With this innovative option, even seasoned experts would struggle to distinguish between laminate and authentic wood flooring.

Classic Touch laminate flooring features a stabilizing layer, HDF carrier board, decor film, and abrasion-resistant overlay that boasts an incredibly lifelike surface. The surface structure mirrors the decor pattern, achieved through the use of pores that mimic the natural grain of the wood.

## 8MM ROOMS AQUA 4V

Don't be scared of water thanks to the Aqua Pearl system

With its all-round V-gap and real wood structure, our Suite collection is the right floor for lovers of robust and easy-care floors. The Suite collection is available in 2 different widths and has a beautiful selection of natural decors.

We all know what it's like: you pop outside for a few minutes, and, as the weather's so nice, you don't bother closing the windows. And then the heavens open. A brief downpour doesn't just leave your clothes sodden – it leaves your floor at home drenched, too, if you've left the windows open.

ROOMS floors are the solution for all situations. Their Aqua Pearl system protects floors against water and all kinds of liquids; they resist spills for up to 24 hours. Our time at home can be incredibly hectic, so you need to give it your all. And if you don't deal with an accident immediately, there's no need to worry: your floor's got your back.

- THICKNESS:** 8 mm
- BOARD SIZE:** 1380 X 191 X 8mm
- BOX QUANTITY:** 8 Panels / 2.109 m<sup>2</sup>
- WARRANTY:** 30 Year Residential
- USE CLASS:** 33 / AC5 Suitable for high traffic commercial & domestic everyday use.

8MM  
HERRINGBONE  
4V

BOARD SIZE

# 8MM HERRINGBONE 4V

The classic Herringbone design can be traced back to the Romans who used the design in the construction of roads to add strength. The pattern became known as "Herring - Bone" as it resembles the outline of a fish skeleton. The Renaissance periods between the 14th and 17th centuries saw the design being used in many aspects of architectural design including flooring.

Traditional real wood Herringbone has long been a desirable choice to add a touch of class to any room or entrance hallway. Laminate manufacturing expertise has now been developed to bring you a high quality affordable alternative.

- THICKNESS:** 8 mm
- BOARD SIZE:** 665 X 133 X 8 mm
- BOX QUANTITY:** 14 Panels / 1.238 m<sup>2</sup>
- WARRANTY:** 25 Year Residential
- USE CLASS:** 32 / AC4 Suitable for medium commercial & domestic everyday use.
- INSTALLATION:** A and B parts system (Left & Rights)

## ALL LAMINATE HERRINGBONE JOINTS **MUST BE GLUED** WITH PVA GLUE

*\*Please note that matching planks are available for all Herringbone designs.*

**\*Subfloor must be 100% level per installation instructions**

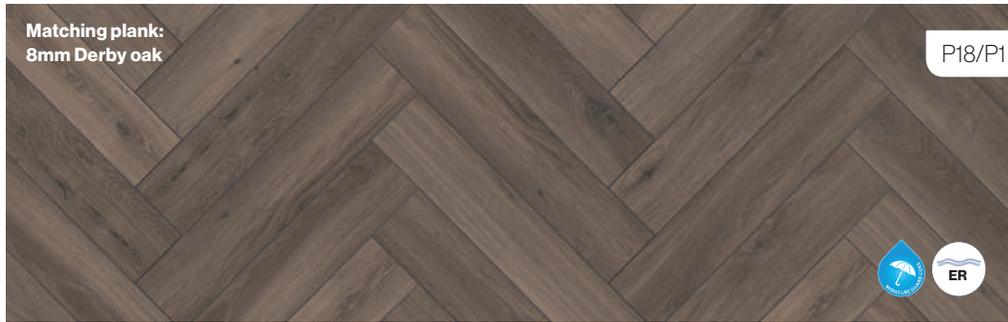

Our Herringbone range now has an improved moisture guard core board which gives enhanced anti swelling performance over standard laminates. **Not suitable for outdoor use or rooms with permanently high moisture, e.g. shower cubicles, wet rooms, saunas and rooms with floor drains.**

# Underlay & Profiles

Underlays are an essential component of the flooring installation process, providing numerous benefits that contribute to the overall performance and lifespan of the laminate flooring.

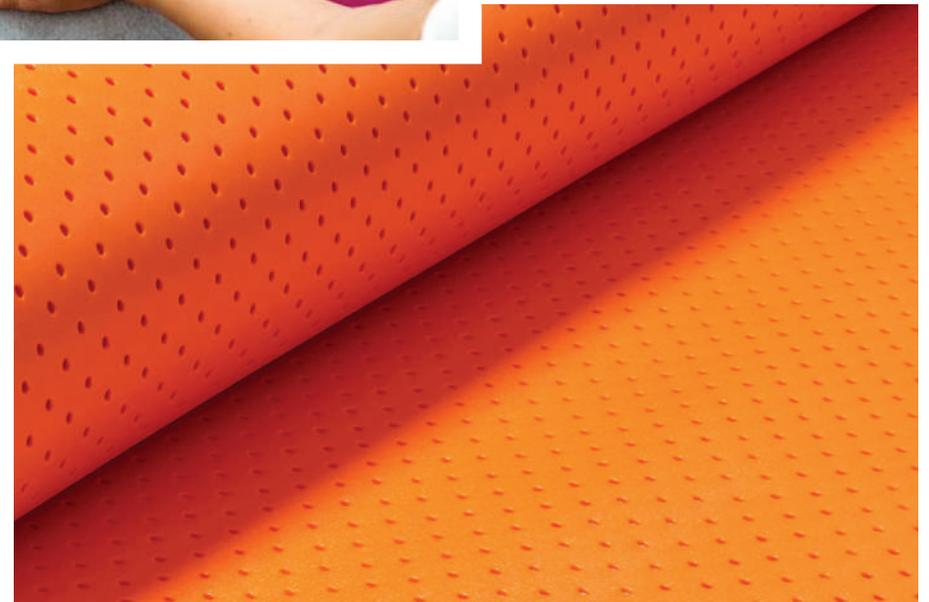

A good underlay is the foundation to all professional floor installations therefore it is essential that the correct product is specified to suit conditions and customer expectations of performance.

## **Benefits of Underlays:**

**Sound insulation:** One of the most significant benefits of underlays is their ability to reduce sound transmission.

**Enhanced comfort:** Underlays can make the laminate flooring feel more comfortable underfoot, providing a cushioning effect that reduces fatigue and increases comfort.

**Improved durability:** The use of underlays can also increase the durability of the laminate flooring by protecting it from the wear and tear of foot traffic, reducing the risk of damage.

# Laminate Stair nosing solutions

Wooden stairs are in line with the latest interior design trends. Puristic furniture and large glass areas correspond with floors, walls and stairs that radiate warmth and provide texture.

Our Stair Nosing are made from matching planks, which enables you to choose an accompanying decor for your stair nosing. We have a premium 10mm and 12mm selection of quality decors available for you to choose from.

Length: 2700mm  
Floor Thickness: 7mm - 16mm

# Flooring Profiles

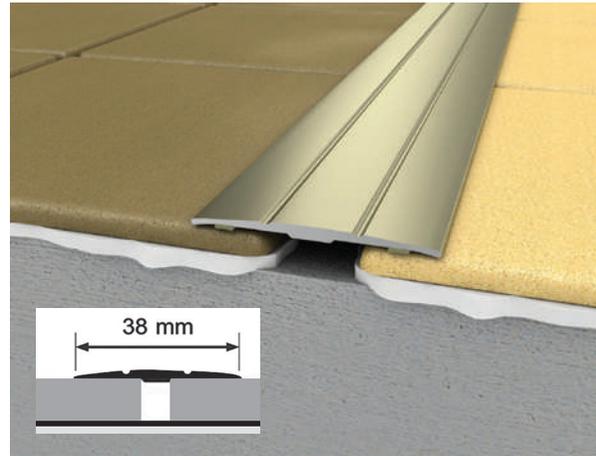

BY WHITERIVER

When installing new floors, we often face the problem of uncomfortable joints, surface unevenness, necessity of expansion joints or stairs.

It sometimes happens that a bad combination of floors made of various materials, e.g. panels and carpeting, completely spoils the visual effect. Sometimes small details can determine whether the whole interior deserves recognition, so it is worth reaching for proven solutions.

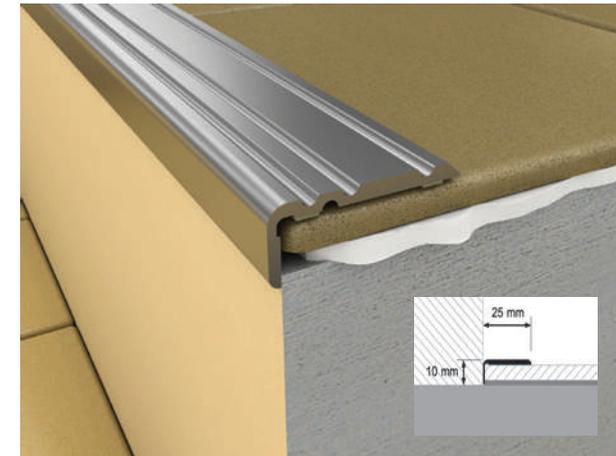

In order to meet the expectations of our customers, we have created a bespoke series of products, which will facilitate the selection of the right product. What's more, we assure you that regardless of the collection to which a given profile belongs, it has been made with the highest precision, using only elements that meet the strict standards.

So you can be sure about its durability.

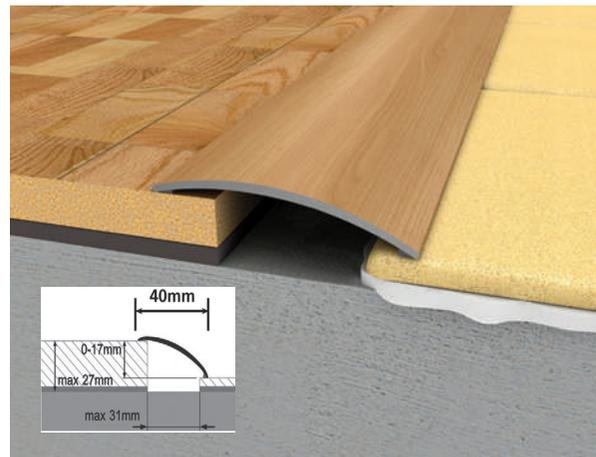

**WRG 1 FLAT SELF ADHESIVE**

**WRG 4 SCREW DOWN REDUCER / FLAT**

900mm & 1800mm / Silver & Gold Only

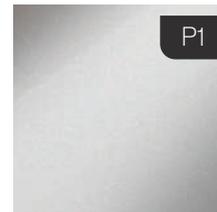

# Profile Colours

BY WHITERIVER

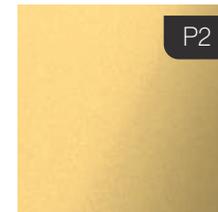

It is important to complete your floor with quality finishing touches. Whiteriver flooring profiles come in a variety of different styles and colours to help create a seamless and streamline look for your installation. AC4 rating ensures a lasting finish.

AC4 rating is the first level specifically intended for commercial usage. AC4 rated laminate is suitable for moderately trafficked commercial spaces such as boutiques, offices, salons and cafes.

# Commercial Profiles

Commercial profiles are an essential component of laminate flooring installations. These profiles are specially designed to provide a smooth transition between two different types of flooring or to cover up the expansion gaps between the laminate flooring and walls, doorways, or other fixed objects in the room.

There are several types of commercial profiles available in the market, including T-moulding, reducer, end cap, and stair nose profiles. Each of these profiles serves a specific purpose and is designed to provide a seamless finish to the laminate flooring installation.

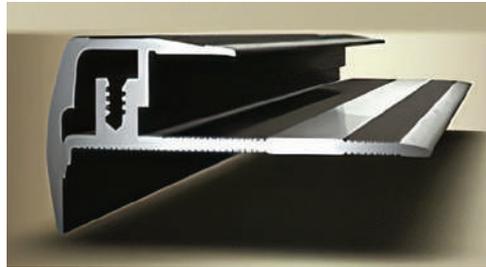

Precision German manufacturing ensures a professional finish for all applications. The base section is secured to the substrate with screws while the top section can be adjusted and removed at any time. Suitable for installation in high use commercial areas.

In summary, commercial profiles provide a professional and finished look to the installation, as well as protecting the laminate flooring from damage.

# Prefinished accessories

## Skirting boards

Our pre-finished foil wrapped skirting's come in 2.4m lengths and are perfect for replacing old skirting while the 16mm scotia's are the ideal size for covering expansion gaps should you wish to leave existing skirting in place. Full range of matching scotia are also available for this range and they are also FSC certified.

# Revitalize your home

Timber floors need a minimum 10mm expansion gap around all edges where the floor is meeting skirting or fixed structures such as kitchen islands. This is essential for natural movement of the floor as room temperatures change throughout the year. The quick fix DIY solution is to leave a gap at existing skirting and cover with a small angled piece of timber known as "scotia". The professional installer and discerning home owner will take the opportunity to add another dimension to their project by replacing the skirting and cutting the base of the door frame. This effectively allows the floor to float under the skirting and door frame for a flawless finish and makes installation easier.

## Skirting & Architrave

White primed skirting and architrave continue to grow in popularity. Each length is pre-primed ready for you to add your own finish. Choose crisp white for clean lines or contemporary shades to match surrounding decors.

# Laying tips

The CLIC system makes laying this floor child's play: with just one finger, panels lock audibly into place. Simply unpack, lay, click and finish – without the least exertion or any additional tools.

- Even easier to lay.
- 50% time saving.
- No hammer, push block or pull bar required.
- Safe and robust.
- Can be walked on immediately.

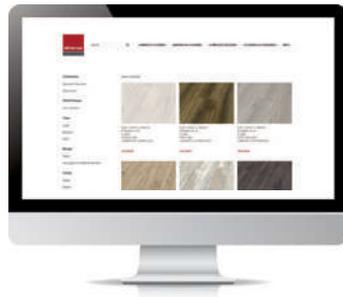

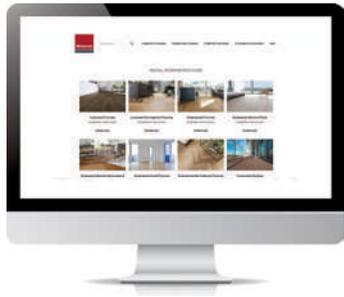

For more laying tips, we recommend to check our website

# Specifiers

Architects & Designers

## History of experience with specifiers

We have a long tradition of working with Architects & Designers on both commercial and residential developments. Along with offering our product range which is displayed on our site, we also offer a bespoke product design service for larger projects, we have expertise dealing in both new design and protected restoration. Our company has worked on many leading projects and have expertise in the following areas.

- Hotels
- Bars & Restaurants
- Retail
- Residential
- Health care
- College/Universities
- Student accommodation
- Museums

## Sustainability

Our company is both FSC® and PEFC certified and we also follow and comply with EU policy on the importation and sale of wood products. All of our laminate products are either PEFC or FSC® certified by the manufacturers, if you require any further information for product specification, or simply want to discuss our product offering we are more than happy to help you. We also have a full product showroom in Dunleer, Co. Louth, Ireland which is available by appointment.

Please do not hesitate to contact us to discuss any requirements you may have. **Tel: +353 (0) 41 686 1000 or enquiries@wrg.ie**

## Samples & Swatches

Request our laminate samples to hold the premium quality of a Whiteriver laminate floor in your hands to truly get a sense of the real colours and surfaces. Get in touch to speak with one of our professionals who will guide your choice in the best suitable direction today.
